EDUCATION

University of Calcutta	Kolkata, India
Bachelor of Technology in Information Technology	2024 – 2027
CGPA – 8.915/10	
Bachelor of Science in Physics(Honours)	2021– 2024
CGPA – 7.285/10	

SKILLS

Programming Languages: Java, JavaScript, Python, C++ | **Backend:** Spring Boot, Node.js, Next.js (API Routes), REST APIs, WebSockets (STOMP) | **Frontend:** React.js, Next.js | **Databases:** MySQL, MongoDB | **Tools:** Git, AWS (EC2, RDS)

PROJECTS

Debnats' – ATS Resume Evaluation System

- Developed a full-stack ATS-based resume evaluation platform using Next.js and Python, automating candidate screening via keyword extraction and relevance scoring.
- Engineered backend services using Next.js API routes and implemented resume parsing logic for structured data analysis.
- Deployed scalable application on AWS cloud infrastructure, ensuring high availability and performance.

Tools/Technologies: Next.js, Node.js, Python, MongoDB, AWS

Result/Impact:

- Reduced manual resume screening effort by automating evaluation workflow.
- Improved shortlisting accuracy through algorithmic scoring and keyword matching.
- Enabled scalable multi-user access with cloud deployment.

XSocial – Real-Time Chat Application

- Built a real-time chat application using Spring Boot and WebSocket (STOMP), enabling low-latency bidirectional communication.
- Designed and optimized MySQL database schema for efficient user, message, and conversation management.
- Deployed backend services on AWS EC2 and configured AWS RDS (MySQL) for reliable and scalable data storage.

Tools/Technologies: Spring Boot, React.js, WebSocket (STOMP), MySQL, AWS

Result/Impact:

- Achieved real-time message delivery with minimal latency.
- Improved system reliability using cloud-based infrastructure.
